

# COMPLETE FINISHING SYSTEMS

## WHO WE ARE

Rohner has been providing the finishing industry with top quality liquid painting booths, powder booths and complete finishing solutions for the last 20 years.

Rohner sets the standard for high quality paint booths and custom manufactured industrial paint systems. Our brand is synonymous with quality and service. Cutting edge technology, engineering, experience and passion drive Rohner to provide the best value in finishing equipment.

Located in Vancouver, Washington, Rohner also has sales, service, and installation offices in CT, WI & AL allowing us to support customers throughout North America.

## SOLUTIONS FOR A VARIETY OF INDUSTRIES

The Rohner team engineers booth standard catalogue and custom finishing equipment solutions for a variety of manufacturing and service entities in the Aerospace, Military, Architectural, Manufacturing, Marine, and Utilities Industries. For larger applications, Rohner solutions are custom engineered for our clients' unique requirements.

Rohner manufactures the majority of the components used in our systems giving us complete control of design, quality & flexibility to install into virtually any environment.

Rohner paint spray booths, powder coating booths, large equipment systems, batch and process ovens, makeup air units, and other finishing components each include the finest of details - sturdy doors, user-friendly controls, clear bright lighting, tight seals, heavy-duty steel, clean airflow, etc. We believe you should always be able to see, hear and feel the durability, reliability and total quality of our booths.

Rohner's product line also includes makeup air units, bake ovens, conveyors, washer, blast cabins and spray booth filters.

## WHY CHOOSE ROHNER?

We custom design and engineer booths that turn our customer's requirements and specifications into durable, reliable products. Our innovative and custom solutions fit our clients' need and give them the assurance they can provide their clients with quality products on time and under budget.

At Rohner we pride ourselves in providing superior service and support, whether the customer is working with a Rohner staff member or contacting an authorized dealer - assures our customers are getting cost effective and reliable quotes for their projects.

Our reputation is always on the line, since the Rohner name is on every booth we build.

**"WE BELIEVE IN DELIVERING EXACTLY WHAT OUR CUSTOMER NEEDS TO GET THE BEST JOB DONE."**

# YOUR PARTNER FOR COMPLETE FINISHING SOLUTIONS

## AN HONEST APPROACH

Choose Rohner's exclusive consulting service and get a biased approach. Yes, you read that correctly - a biased consulting service! We all know consultants are expected to be unbiased, but the reality is, it's hard to leave our past relationships behind.

Here at Rohner, we value our relationships and believe they are our strongest resource. That's why we offer a slightly different approach to consulting - a biased approach.

Rohner has teamed up with key industry partners and vendors who actively produce goods and offer services for the Finishing Industry. Each partner is an expert in their own field, and who better to provide you with the best solutions than those creating the solutions?

### PROJECT CONCEPTION

LET ROHNER BRING LIFE TO YOUR VISION

- DISCOVER** - New Coating & Process Technologies
- EVALUATE** - System Efficiency
- IDENTIFY** - Process Improvements
- DEFINE** - Project Goals & Timeline

### DESIGN & PLANNING

USE ROHNER'S EXPERIENCE TO CREATE YOUR SOLUTION

- DEVELOP** - System Performance Parameters
- CREATE** - 3D System & Building Layout Models
- REFINE** - System Processes & Production flow
- BUDGET** - Cost & R.O.I.

### IMPLEMENTATION

BUILD A SUCCESSFUL PROJECT WITH ROHNER

- COMPILE** - A team of manufactures, suppliers & contractors
- MANAGE** - Bidding, Timelines, Quality & Cost
- SUPERVISE** - System Installation
- QUALITY** - System Performance & Customer Acceptance
- SERVICE** - Service & Technical Support

### PAINT BOOTHS

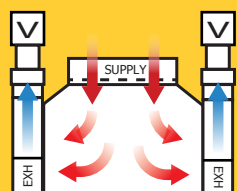

#### CROSS FLOW

- Horizontal Airflow
- Filtered Supply Air
- Overspray Control
- General Purpose

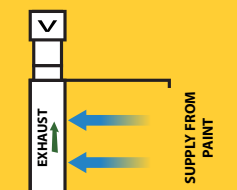

#### DOWN DRAFT

- Full Downward Airflow
- Filtered Supply Air
- Flexible Spray Area
- Superior Performance

#### SEMI DOWN

- Partial Downward Airflow
- Filtered Supply Air
- Flexible Spray Area
- Superior Performance

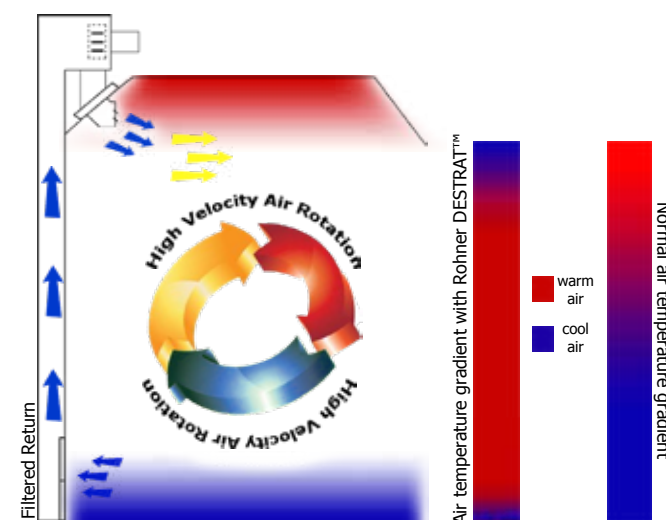

#### OPEN FACE

- Horizontal Airflow
- Non-filtered Supply Air
- Compliant Spray Area
- Cost Effective

Fully enclosed Cross-Flow Booth with pressurized filtered supply air plenum

### DESTRAT Technology™ Waterbourn Cure Technology

### Rohner Manufactures Industry-Specific Solutions

Semi-Downdraft Booth with booth-mounted Makeup Air Unit (MAU) and option dry-chemical fire system

Inline Stainless Powder Booth with rollaway Quick-Color change module

CM-Series Collector Modules with self-cleaning cartridge filters and optional fluidized reclaim hopper.

In-Line Powder Booth with CM-Series reclaim powder module

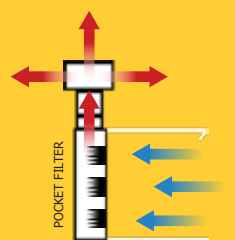

Batch Powder Booth with integral conveyor rail support structure

### POWDER BOOTHS

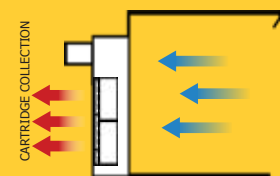

#### NON-RECLAIM

- Spray to Waste
- Pocket Filter
- Final Filter Plenum
- Economy

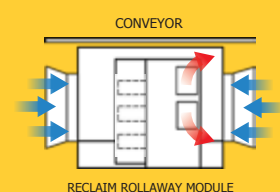

#### RECLAIM

- CM-Series Module
- Cartridge Filter
- Pleated Final Filter
- Fluidized Reclaim

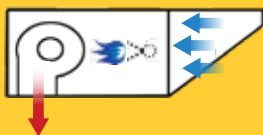

#### INLINE AUTO

- Auto Gun Spray
- Quick Color Change
- Stainless Canopy
- Conveyor Slotted

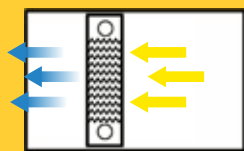

### PAINT BOOTHS

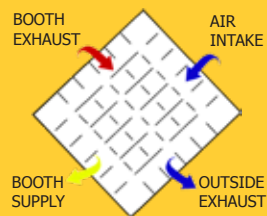

#### HEATED MAKE-UP AIR

- Gas Elec & Steam
- In/Out Door Rated
- Variable Output
- High Temp Bake

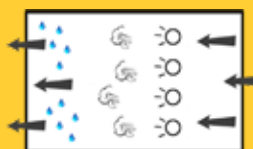

#### COOLED MAKE-UP AIR

- DX & Chilled Water
- Stainless Housing
- Modulated Output
- De-Humidification

#### HEAT RECOVERY

- Direct Plate Exchange
- Multiple Configurations
- Up to 95% Efficiency
- Recycled Air

#### HUMIDITY

- Ultra Sonic & Compressed Air
- Compact Module
- Precise Control
- Water Filtration

SRMI-Series Direct Fired Natural Gas Make-up Air Unit with weather proof housing, V-bank filters & screened inlet hood

PH-Series natural gas fired process heater used on process oven with CLEAN CURE Technology™

CAFH-Series compressed air duct humidifier

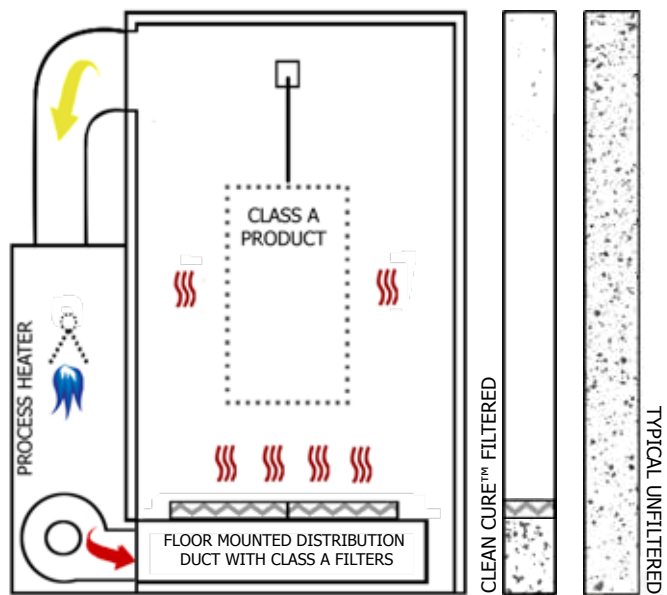

OBE-Series Outdoor Industrial Blast Enclosure with Integral 10 ton crane rail and weather canopy

### CLEAN CURE Technology™

Rohner Process Oven with **CLEAN CURE Technology™** used for a Class A surface finish

Blast equipment with media elevator, rotary air wash, hopper and blast pot

Outdoor Blast Enclosure with dust collector and equipment room rated for seismic, snow and wind loads

### POWDER BOOTHS

#### BLAST ENCLOSURE WITH RECOVERY

- Full & Partial Floor Recovery
- Direct Drive Auger
- Steel, Sand & Shot Compatible

#### DUST COLLECTION

- Down-Flow Cartridge Collector
- Automatic Back Pulse Cleaning
- 10,000-100,000 CFM

#### SANDING & PREP ENCLOSURE

- Open Cartridge Collector Modules
- Automatic Back Pulse Cleaning
- Final Filtered
- Sand, Prep & Blast
